SEPTEMBER NEWSLETTER

September brings a change in seasons and an opportunity to focus on building independence through everyday activities. This month, we encourage everyone to continue practicing important Daily Living Skills, such as staying organized, managing schedules, preparing meals, making healthy choices, and participating in the community. Small steps each day can help build confidence and greater independence over time.

At ARIL, we are proud to support our person served as they work toward their individual goals and celebrate their accomplishments along the way. We hope September is a month filled with learning, growth, and new opportunities!

Self Determination Services

The Self-Determination Program (SDP) with Inland Regional Center (IRC) offers individuals with developmental disabilities greater control, flexibility, and choice in how they receive services and supports, compared to traditional IRC services. Under the SDP, participants receive an individualized budget based on their assessed needs and can choose service providers who do not have to be vendorized with IRC, giving them the freedom to design a customized plan that reflects their personal goals, cultural background, and lifestyle.

In contrast, traditional IRC services follow a more standardized approach, where case managers coordinate services through vendored providers within a structured system. While both models aim to support individuals in living fulfilling lives, the Self-Determination Program empowers participants with more autonomy and person-centered planning.
