OFFICIAL NEWSLETTER OF ARIL

JUNE NEWSLETTER

June is here, bringing sunshine, warmer days, and new opportunities to learn, grow, and connect with others. As summer begins, it's a wonderful time to get involved in community activities, enjoy time outdoors, and continue building important life skills and independence.

This month, we also celebrate Father's Day, a special time to recognize and appreciate the fathers, father figures, and supportive individuals who encourage, guide, and care for us. Acts of kindness, gratitude, and connection help strengthen the relationships that matter most.

As we move through June, we encourage all persons served to stay motivated and continue working toward their personal goals.

Let's make June a month of positivity, growth, appreciation, and continued success!

SPOTLIGHT

PERSON SERVED SPOTLIGHT: CRYSTAL'S COOKING SUCCESS!

This month, we are excited to recognize Crystal for reaching an important milestone in her journey toward greater independence. With the support and encouragement of her DSP Katty, Crystal practiced her cooking skills and successfully prepared a delicious taco meal.

Throughout the activity, Crystal demonstrated patience, confidence, and a willingness to learn as she participated in meal preparation and followed cooking steps. Developing cooking skills is an important part of building independence, and Crystal's accomplishment is a wonderful example of how dedication and practice can lead to success.

We are proud of Crystal for taking on this challenge and continuing to work toward her personal goals. Congratulations, Crystal, on this great achievement!

Have you recently accomplished a goal, learned a new skill, or achieved something you're proud of? Be sure to share your success with your DSP! We love celebrating the accomplishments of our person served, and you may be featured in an upcoming newsletter spotlight.

Self Determination Services

The Self-Determination Program (SDP) with Inland Regional Center (IRC) offers individuals with developmental disabilities greater control, flexibility, and choice in how they receive services and supports, compared to traditional IRC services. Under the SDP, participants receive an individualized budget based on their assessed needs and can choose service providers who do not have to be vendorized with IRC, giving them the freedom to design a customized plan that reflects their personal goals, cultural background, and lifestyle.

In contrast, traditional IRC services follow a more standardized approach, where case managers coordinate services through vendored providers within a structured system. While both models aim to support individuals in living fulfilling lives, the Self-Determination Program empowers participants with more autonomy and person-centered planning.
