OCTOBER NEWSLETTER

As we welcome October, we're excited to embrace a new month filled with opportunities for learning, growth, and new experiences! At ARIL, every day is an opportunity for our persons served to build confidence, practice independence, and work toward their personal goals.

This month, we're celebrating the progress and achievements happening during sessions from learning new daily living skills to exploring the community, making healthy choices, and trying new things. We're proud of the hard work our persons served and DSPs continue to put in each day.

Thank you to our dedicated staff and families for continuing to support and encourage independence. We look forward to another month of learning, growing, and celebrating success together!

Self Determination Services

The Self-Determination Program (SDP) with Inland Regional Center (IRC) offers individuals with developmental disabilities greater control, flexibility, and choice in how they receive services and supports, compared to traditional IRC services. Under the SDP, participants receive an individualized budget based on their assessed needs and can choose service providers who do not have to be vendorized with IRC, giving them the freedom to design a customized plan that reflects their personal goals, cultural background, and lifestyle.

In contrast, traditional IRC services follow a more standardized approach, where case managers coordinate services through vendored providers within a structured system. While both models aim to support individuals in living fulfilling lives, the Self-Determination Program empowers participants with more autonomy and person-centered planning.
